

Hi.. in terms of video converter.. The best recommendation is "Total Video Converter", it supports all video file formats and is very easy to use. The program is completely free and with a Russian interface. What's more, it also allows you to convert video, audio and other multimedia files from one format to another. With this converter, you can do video editing as well as burn it to DVD. This program also has the ability to make videos and slideshows from photos. To use the program, you do not need any special knowledge, it is quite simple, and you do not have to spend a lot of time learning it.
