This is a very simple program and it will not ask you to supply many options like a real audio conversion program. It will just do the job for you. It can be used to convert audio tracks to any audio format (MP3/OGG/WMA) or even as a Cddb retrieval tool. However, it lacks some advanced features, such as auto-trimming, but for its size and simplicity it is a nice program to have. Enjoy Music CD's with your Digital Audio Player. Such as With Music Player is on your PC. Or enjoy your CD's by ripping Audio CD's to your own PC in MP3 or WMA format. Enjoy your Audio CD's with Your Digital Audio Player. To Play Back Audio CD's on Your Digital Audio Player, make sure the DAP is in CD-Read Mode. (Not Disc-Read Mode) If you are using With Music Player on your PC, With Music Player will auto-detect all Audio CD's. To Play Audio CD's With Music Player, select "CD Audio" as "Playback Format". If you are not using With Music Player on your PC, Here is a Program that will help you to Read Audio CD's. To Read Audio CD's with Audio CD Ripper, Select MP3/WMA/OGG as your Audio Format. If you are not using Audio CD Ripper, Here is a Program that will help you to Rip Audio CD's to MP3/WMA/OGG. To Rip Audio CD's to MP3/WMA/OGG, Select MP3/WMA/OGG as your Audio Format. #### **What's New In QuickRipper?**

You will be converting audio files in different formats in addition to ripping AudioCD's. It will take several minutes to rip an AudioCD. The original audio track is not changed during ripping. Currently, only MPEG Layer-3(MP3) is supported as output file format. The Cddb features of QuickRipper are Free. This program is available in three languages, English, French and Chinese. Saturday, November 4, 2008 You can make ringtones for your mobile phone. You can upload your own music to MP3 sites like the Apple iTunes or Nokia MP3 mobile phones. But how to make ringtones that are optimized for your phone. Here is the solution! The first thing you need is a previewer tool. There is a few free options that you can use. One of them is MobileCD. It allows you to preview the audio of your CD on your mobile phone. But it does not help you to make ringtones. So let's see how you can do it. Step 1: Rip your CD to your computer If you don't have MP3 player software on

---

your computer already, you can use a MP3 ripping software to rip the MP3 audio tracks from your CD to your computer. You can use a CD ripping software to create customized disc image.

**Step 2: Add your phone** To convert audio tracks from CD to MP3, you need a player software on your mobile phone. You can use one of your MP3 player software like iPod. For Nokia users, you can also use PocketMaX. Now you have a MP3 tracks list on your mobile phone. Check the track list and see which one you want to use as your ringtone. Now it is time to create the custom ringtone!

**Step 3: Create custom ringtone** To make a custom ringtone for your mobile phone, you need a custom ringtone maker software. You can use the free MP3 Ringtone Maker software from the following site. With this software, you can edit the MP3 file and customize it according to your mobile phone. You can specify the audio sample rate, the audio bit rate and choose an equalizer to customize your ringtone. Here is a sample how to make a custom ringtone from your audio CD.

**Step 4: Convert** When you are done, just save it on your computer. Then you can transfer it to your mobile phone. After you transfer, you can use the player software to preview the ringtone on your phone.

**Step 5: Enjoy it** You have your own custom ringtone now. You can enjoy it on your mobile phone. This tutorial is for Mac users only. If you are using Windows, you can try another tutorial to make ringtones.
