The Amateur Player, or Tangram player, is part of a longer piece, which also includes the Mentalizer, the Tricky Palenque, and an 8 part. It seems to be a very good game for its time period, when 3D games were still in their beginning stages, 2D and 2D games were. The in-game AIs are fair too if you want to play the game. They don't even get an anti-virus that can defend against malicious code. Since they don't have any security, it's impossible for a smartphone to be secured against a hacker. Texting or calling a stranger or someone you met just once seems like such a good idea at the time, but this is a recipe for disaster. If you're not careful, the worst possible thing can happen: The person you text or call suddenly and unexpectedly appears out of nowhere when you least expect it. At that point, the cyberpunk has arrived and you're about to be his next victim. Finally, the greatest weakness of a smartphone is that it's always on. Your smartphone watches for words when you text. It listens for sounds when you talk. It hears your heartbeat when you take a photo. It even knows when you're sleeping. Your smartphone is always listening and watching. Since it's always on, malware is not only super-
