Medal of Honor Allied Assault: Breakthrough is a game based on the Medal of Honor series, and the sequel to the Medal of Honor Allied Assault. The game was developed by Danger Close Games and published by Electronic Arts in 2004 for the Xbox. The player takes the role of an American Marine, controlling either French or German soldiers in a third person shooter environment. The player picks up weapons and ammunition from dead soldiers and uses them to kill enemies. The end goal of the game is to complete a number of objectives that range from rescuing hostages to ambushing enemy positions. While the enemies are visible from the beginning of the game, the game was set in a fictional setting. .
