For those who are worried about searching for the Gypsies or the monsters. Gypsies are located in a mountain, usually in a difficult to access area. Monster groups are located inside large dungeons with several guards. The key is to fight a few enemies in a single battle and the rest will automatically fight alongside you. You can even set a critical point in battle and get everyone to help you out. Gypsies have been known for their skills to create illusions and conjurations. Basically you can't see them, but you can use illusions to see a light trail and bullets flying from your bow. Even if you get hit, if you have a critical point you'll be able to stab them in the head with your illusion of light. If you really want to, you can even call forth their complete illusion and slash them in the back, then continue the attack using only the illusion of light. Whenever a player gets hit, the opponent's defense will go down. You can attack every time that your defense goes down, and the more hits you land the higher your defense will go. There are four types of magic: physical, fire, earth, and light. ● Fire has a high conversion rate, but less damage (low peak damage but fast rate) ● Earth has a high peak damage but low conversion rate ● Light has a high rate of conversion, but less damage (low peak damage but high rate) ● Only one weapon type can be used at a time. The gear that you have equipped is denoted by a tier. It ranges from 1 to 5. First tier is 1, and it has the lowest defense, last tier is 5, and it has the highest defense. The higher the tier of your gear, the higher the physical attributes and the amount
