1-Player adventure game set in a fully explorable world. Play through the story of a missing waitress in an alpine hamlet, or try to survive the rats. You can walk around in the world, solving puzzles or avoiding attacks. You can save your game at any time, and you can even replay any level. With multiple endings and two different gaming modes, Honeycomb is very replayable. Will you find the missing waitress, or get eaten by the rats? Honeycomb is the first in a series of point and click adventure games. This one was made with the Unity engine. Our Story: We are two friends, Marius and Tom, who play games together. Marius (the artist) and Tom (the programmer) love video games and decided to go into a career in game development. We spent a year creating and polishing Honeycomb. It took quite a while, but the result is now out there for you to experience. After its release, we will be heading in a new direction, focusing on the mobile market. So, if you want to support us and help us create new adventures, you are more than welcome to subscribe to our Patreon page. ### **[New]**

Once you start the game, you will go through a level test, where you will have to make the game 1st place to make it through to the next world. Once you start the level, you will go in first person. The controls are as follows: Arrow key: Jump/Move/Rotate camera control pad: Move or aim. The game will reset when you die. You can change the jump direction by pressing the Right key. You can jump a little bit higher by pressing the Right key again. If you fail a level, you will start at the last checkpoint. You must overcome all obstacles in the level to finish. You can also win points by jumping on a spider. You will win the most points if you make it to the end of the level and can get as far as possible. You can also collect candy to gain points. Each candy you collect will give you a permanent boost to your jump, a faster jump, a longer jump, a longer break time, a skipable jump, and more. You can skip all the jumps by pressing the A button. You can have access to more candy by pressing the Y button to open the candy will next to the dog of your choice. You can upgrade all of your abilities by purchasing upgrades from the facility in which you start your level. Each upgrade will give you an additional permanent boost. Your girlfriend is in her room when she has a strange dream that has her running around in the house, up and down the stairs, and eventually she ends up in her room. Her room is purple and cloudy but there is nothing in there besides her bed. She tells you her dream and then tells you to follow her into her room. She opens the door and you see a tower where she is, a golden one. The golden tower points up towards the sky. Before you climb to the tower, you have to go through a series of challenges. The first challenge is pretty easy, just jump over all the spiders. You will find a new stairway (on the second level in the first level test) if you need to. The next challenge is to swim through a large pool of water. The next part is a little harder, jump all the ice blocks in order to keep going. Jump up and then jump through the spider-filled holes. The last challenge is to walk through a small river. You will see a little animal in the middle of the stream, you can jump and latch on to him to make it to the other side. Once you reach the other

## **What's new:**

**Has Already Been Born With the crowning of Bikini Kill—her spirited, cult-favorite feminist punk-rock group, the only all-girl band in the U.S. to turn scorching basement shows into world famous raves, not to mention the galvanizing event that galvanized legions of fans into the riot grrrl movement—the celebration of punk rock is beginning in earnest. One can argue that punk rock has been with us all along, and that its various strains and strains of music-making have been enduringly popular. But this is the first time that punk seems poised to become a fully fledged, mainstream musical movement, not that the girls were the best thing to happen to "alternative rock" (if we may borrow a term from Michael Azerrad's out-of-print "Dennie and the Kids"), but certainly they are the most important thing to happen to punk since the Sex Pistols. Bikini Kill helped to begin that talk, and her hometown colleagues in the riot grrrl movement with others—the fierce-but-fine Pussy Riots, Vaginal Trigger, D.C.'s Huggy Bunch, Wisconsin's Lunachicks, and the always-troubled, but vital, Killing Joke in Britain—are contributing sorely needed support for their mother institution, drawing up to ten thousand women to scream, chant, and dance at a concert in 2002 and possibly attracting hundreds of thousands when they tour later this year in support of a 12-CD compilation, Monster Puberty. That touring (or whatever it'll be called) will be a giant-reaching affair, told with love and fierceness and each band's individual creative unique. And like every new punk movement since the Sex Pistols, the punk-rock movement has predicated itself, like so many more recent artistic movements (think The Beatles), on the appeal of musical experimentation at the fusion of rock and pop. Where there is chaos, rebellious mayhem, an invigorating sense of newness for old-meatheads, all it takes is a muttering mass of eager twentysomethings to turn it into a movement, to choose "one, two, three, four"; drummer and local friend Kristin Hocko**
