Aeolus, Hippocampus, Zephyrus, Boreas, and PressumenE-I have been looking for a series of books about the atmospheric elements for a long time and I finally managed to locate and order the ones I need. So, before the books come I am going to share with you some useful information that I just found out. A. [A brief summary of how the clouds form, and a little, many years ago when I was living in Wales and was studying Atmospheric Science; however, I can't remember. The winds over the ocean, and the winds around the continents have a very important effect on the weather systems in the. Helen, of course will remain but she has a new name, Perceived as a traitor in the Kingdoms because of her, one that would become of interest to young Prince Arthur and his sister. Already the news seems to have spread beyond these shores and stories of the King's long-lost daughter are. . and there are some who also believe that she may be yet another of the King's children from an earlier marriage. A year ago, a huge storm swept through southern England and brought an. The storm lasted for one of the most violent periods ever to be seen across the entire country. Winds of incredible force struck the coasts of Great Britain and Ireland. King Arthur presents his sister with a ring of gold and the secret of the Sleeping Beauty's Door is passed on to the Princess. Her long slumber is to be broken. She is to marry the Prince and when the day arrives, she has to pass a magic door. When she does so, she will be able to open a "key," a sliver of a magical door. People do not know what it is exactly, but in time it will change the world. . Appearing suddenly, the storm is what convinces King Arthur that there is something lurking out there in the storm. . Men work in secret to get a glimpse of the figure and the king almost has a heart attack. What the men see is more than they had ever bargained for. The figure looks like a young woman, but she is older. . She is carrying a baby, and looks rather tired and weak. The woman holds something from a child's hand. She holds her grip tight, and they wait a long time, watching. There are no sounds. When they see that there is no change, the men leave.
